Date ▲	Type	Run ▲	Pub	Town
16/03/2026	Run	2457	📍 The Sportsman Pub	Withdean
09/03/2026	Run	2456	📍 The Half Moon	Plumpton
02/03/2026	Run	2455	📍 The Plough Inn	Pyecombe
23/02/2026	Run	2454	📍 The Cleveland	Brighton

Typing a name or hash handle will reduce the number of hashers in the drop down. The **Active only** check box is selected by default, i.e. only those hashers who have run at least 3 times in the past year will appear in the list.

Note the **Name** field does not include the surname in the public view, only the first initial.

The Total Runs count is equal to the **Runs Before 9/2/1987** + **Missing Runs** + the **count of attendances**.

The **Export CSV** button will download a list of all runs in a comma-separated values format.

Selecting the run number will bring up the [Run Details](#) page.

Selecting the **Pub Name** will pop up a window with a map and three buttons (**View on OpenStreetMap**, **View on Google Maps**, and **Get Directions**).

The editor view looks very similar to the public view but the details are editable. After updating the **Name**, **Hash Name**, **Runs Before 9/2/1987** and **Missing Runs** information select the **Save Changes** button.

To add run attendances for a run, select a run from the drop down list (and type part of the run number or date in dd/mm/yyyy format

to reduce the list) and select **Attendance Type**, ie. **Run**, **Walk**, **Hare**, etc. and select **Add Run**.

To add a new hasher select **Add New Hasher** (and a form will appear at the top of the page to complete)

Select **Edit** next to the hasher to change the attendance type, and **Delete** to remove a row.
