

## Run Details (general public view)

# Run Details

 **What:** Run details, trail map, write-up, attendees.

 **Tip:** Explore the route on the map; scroll details.

Typing a run number or date (in dd/mm/yyyy format) will reduce the runs in the filter. It is sorted from latest run to earliest, i.e. #1.

### Select Run

Search by run number or date

- Run #2457 - 16/03/2026
- Run #2456 - 09/03/2026
- Run #2455 - 02/03/2026
- Run #2454 - 23/02/2026
- Run #2453 - 16/02/2026
- Run #2452 - 09/02/2026

Selecting a run will pop up a page listing details.

### Run #2457 View GPX

Date	
16/03/2026	
Pub	Town
 The Sportsman Pub	Withdean
Additional Info	
-	
Hash Write Up	
#2457 Sportsman, Withdean – In his defence, Fukarwe had originally picked the Plough at Pyecombe for his couple of dispatches mentions to wrap up another great hash. - Bouncer	

Attendance ListResults per Page: 50 Export CSV

Hasher	Attendance Type
<a href="#">Pondweed - Ivan L.</a>	 Hare
<a href="#">Angel - Gabby B.</a>	 Run
<a href="#">Beat the Barman - Simon B.</a>	 Walk
<a href="#">Bouncer - John B.</a>	 Run

From the details page, selecting the Pub Name will pop up a page with a map

Selecting **View GPX** will be available if there is a trail map for the run. It will bring up a screen showing the trail (the **green** dot is the start, the **red** dot is the end, and the **blue** pin is the pub). Selecting the **blue** pin will pop up the name of the pub in a bubble. In the upper right corner is the distance and elevation gained and at the bottom is an elevation profile. Strava, Garmin, Suunto, Polar, Coros, Apple and/or Fitbit icons will appear at the top if the run was downloaded from or recorded via such device or application.

The **Export CSV** button will download a list of all attendees in a comma-separated values format

Selecting the hasher will bring up the [Hasher Run History](#) page defaulted to the selected hasher.

Date: 16/03/2026

Pub: The Sportsman Pub - Withdean | Town: Withdean

Setter (only used if no hares in attendance): Pondweed

Additional Info

Hash Write Up

#2457 Sportsman, Withdean – In his defence, Fukarwe had originally picked the Plough at Pyecombe for his r\*n but after a change of date, Tripsy & Shirker took both his date and his pub. In his defence, Fukarwe wasn't on trail 3 weeks ago for Nasty Nips' hash from the Cleveland, so may not have been aware that much of the local off road had already been utilised. And in his defence, Fukarwe wasn't to know that some of us missed the chalk talk as bags were dumped

Add Attendance by Name or Hash Handle

Select Hasher: Type hasher name... | Attendance Type: Run | Add Attendance

Attendance List Results per Page: 50 Export CSV

Hasher	Attendance Type	Actions
Pondweed - Ivan Lyons	Hare	<span>Edit</span> <span>Delete</span>
Angel - Gabby Biggins	Run	<span>Edit</span> <span>Delete</span>

The editor view looks very similar to the public view but the details are editable. After updating the Setter, Additional info, and Hash Write Up information select the **Save Changes** button.

The **Upload GPX** button pops up a window with a choice of either a file to upload or upload from Strava. (see past runs documentation for additional help). If the user has not uploaded from Strava previously then the user must authenticate first (Home → [Strava Connect](#)).

To add run attendance for a run, select a hasher from the drop down list (typing part of their name or hash handle will reduce the list) and select **Attendance Type**, ie. **Run**, **Walk**, **Hare**, etc. and select **Add Attendance**.

button.
